SKILLS

- Design and evolve an application as part of a team
- Develop application features using Node.js and React, with postgresSQL for the data-base management
- Work with rest-full APIs using Express and Axios
- Create quality interfaces (intuitive, efficient and elegant) with modern css and javascript

CODE PROJECTS

A showcase website for my art exhibition "Bestiaire Intime"

Team : 3 devs **Duration :** part-time during 3 months

My tasks : Project management (with trello), designs and mockups (with canva), co-development (with VScode + HTML, CSS, JS), version control (with Git and GitHub)

Bad Blog > a blog about badminton and learning node.js

Team : -- **Duration :** 1 week

Stack : node.js / ejs / express / body parser

Galerie > an art gallery using the Met museum API

Team : 3 devs **Duration :** work in progress

Stack : node.js / react.js / rest API

Portefolio > my personal page using next.js and tailwind

Team : -- **Duration :** 2 weeks

Stack : Figma for the design + node.js and Next.js + Tailwind

MANAGEMENT EXPERIENCE
